## From the office

The team have spent the last few weeks getting into the festive spirit, including decorating our offices. If you follow us on Facebook or Instagram, you may have spotted some of our Christmas decorations around Bako Wales HQ.

As we head into 2025, the Bako Wales team would like to take the time to wish all our members a happy new year. We look forward to working alongside you all in 2025.

## Market Updates

### Fats

Major producers in the global market suffered severe crop losses this year due to adverse weather conditions with overall yields down on the 5-year average, which has led to recent price increases.

Hot & dry weather has had an impact on major sunflower oil producers with production down in Ukraine, Russia & the Black Sea region by circa 5.4M tonne. As a result, sunflower oil prices have risen sharply.

Rapeseed global output has also declined. This accompanied with increased demand due to high sunflower pricing has put pressure on rapeseed oil pricing over recent months.

Flooding in some soyoil plantations led to crop losses that, accompanied with concerns surrounding weak exports from Malaysia, has also put pressure on palm oil demand.

Prices are expected to remain firm over the coming months.
